

## **Protiviti Member Firm for India Partners with SecurityBridge to Strengthen SAP Security and Compliance Capabilities Across the Indian Regions**

**Mumbai, India – [Month] [Day], 2025** – Protiviti Member Firm for India, the consulting firm specializing in governance, risk, and technology solutions, today announced a strategic collaboration with SecurityBridge, the industry-leading provider of SAP-native cybersecurity solutions. This partnership brings together Protiviti's deep expertise in SAP governance, risk, and compliance (GRC) with SecurityBridge's advanced SAP cybersecurity platform to deliver end-to-end protection for enterprises across India and the broader region.

As organizations accelerate their SAP transformation journeys—whether through S/4HANA migrations, cloud adoption, or digital modernization—the need for a unified, proactive approach to SAP security has become essential. Through this collaboration, Protiviti India will cater clients with an integrated SAP security framework that combines near real-time threat detection, vulnerability management, automated controls monitoring, and continuous compliance within a single, SAP-native platform.

“As SAP landscapes have become increasingly complex and mission-critical, cybersecurity can no longer be an afterthought” emphasized, Ankit Sharma, Managing Director at Protiviti Member Firm for India. “Our alliance with SecurityBridge, a leader of repute in SAP cybersecurity space strengthens and epitomizes our commitment to delivering secure, resilient, and compliant SAP environments for the client businesses. Together, we are combining deep SAP expertise and know-how with advanced security innovation to deliver our clients to stay ahead the curves of evolving cyber threats.

By aligning with a specialized SAP cybersecurity provider, we are not only enhancing our ability to proactively identify risks, strengthen controls, and safeguard business critical SAP systems, but also to forge trust, continuity, and confidence with our clients.”

SecurityBridge's platform is built natively within SAP, eliminating the need for external integrations while providing unparalleled visibility into vulnerabilities, configuration risks, interface exposures, and real-time threats. By adopting a unified platform approach, Protiviti India can support organizations in regulated and high-risk industries—such as manufacturing, energy, financial services, and public sector—in strengthening their security posture while simplifying compliance and audit activities.

“Protiviti Member Firm for India has a strong track record of delivering value-driven SAP GRC and security services, making them an ideal and trusted partner for SecurityBridge as we expand our presence across India,” said **Onno Coenen, Managing Director of APAC, SecurityBridge**. “Together, we envision to empower organizations with a holistic, proactive

approach to SAP cybersecurity—one that keeps pace with evolving threats and provides the transparency and assurance businesses need to operate confidently.”

This collaboration marks an important milestone in Protiviti Member Firm for India’s commitment to delivering cutting-edge technology solutions backed by deep process and risk expertise. By integrating SecurityBridge’s advanced capabilities with Protiviti’s advisory and implementation services, clients can now achieve a higher level of SAP security maturity, operational efficiency, and regulatory alignment.

Together, Protiviti Member Firm for India and SecurityBridge aim to set a new benchmark for SAP security excellence in the region, ensuring enterprises have the tools, insights, and strategic support required to protect their critical systems and drive secure digital transformation.
